

Remarks

This is in response to the Office Action mailed December 26, 2007. Claims 1, 5, 6, 14, 33 have been amended. Claim 35 has been canceled. The specification has also been amended. No new matter was introduced by any of the amendments.

Drawing Objections

The Examiner objected to the drawings as failing to comply with 37 CFR 1.84(p)(5) because they include reference characters not mentioned in the description and as failing to comply with 37 CFR 1.21(d) because reference characters appear in the specification that are not in the drawings.

Applicant has amended the specification to include all reference characters in the drawings. Applicant has also amended the specification to eliminate those references that were in the specification and not in the drawings. These amendments, which are based on material originally appearing in the specification and drawings, do not introduce new matter and should place the drawings in condition to overcome the rejections.

Claim Objections

The Examiner objects to claims 1, 5, 6, and 14 because the claims recite the limitation "configured to."

Applicant has amended claims 1, 5, 6, and 14 to overcome this objection.

Claims 35 and 38-42 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant has amended claim 33 to include the limitations of claim 35 and has cancelled claim 35. Therefore applicant submits that claim 33, and claims 34 and 36-44, which depend from and further limit claim 33, are in condition for allowance.

Claim Rejections

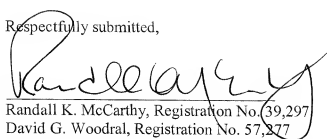

Applicant believes that all claim rejections are overcome by the incorporation of the limitations of claim 35 into claim 33 as discussed above.

Conclusion

This is intended to be a complete response to the Office Action mailed November 15, 2007. The Applicants respectfully request allowance of all of the claims pending in the application.
